	No benefits		Illness and accidents from acts of daring are insured up to a maximum amount of CHF 250,000 per calendar year.
3 Additional services and benefits	6 Benefit restrictions		
3.1 CSS determines in a list (cf. para. 41 AVB) which additional services and benefits it is able to provide in relationship to paragraph 2, for example measures for health promotion, prevention of disease, and assistance. The three categories of insurance, namely "Economy", "Balance" and "Premium", also apply with respect to the additional services and benefits offered. CSS determines the scope of benefits for each of the categories of insurance in its own right.	6.1 If an insured event occurs CSS does not provide benefits for alternative and/or complementary medical treatment and medication.		
3.2 Additional services and benefits are provided subject to the fulfilment of certain conditions, which are unilaterally established by CSS and subject to change at any time.	6.2 The free choice of service providers does not apply if the insured person has taken out mandatory healthcare insurance with a restricted choice of service providers. If the insured person is in breach of this condition, no costs will be covered by the insurance.		
3.3 CSS publishes the current list of benefits on the Internet. If CSS does not publish any such list on the Internet, the benefits may be inspected at any CSS agency.	7 No-claims bonus		
4 Entitlement to benefits	7.1 Each insured person can benefit from a one-off annual bonus payment if CSS has not paid any of the insurance benefits which would be due in accordance with the ZB during the observation period.		
4.1 The benefits will be credited to the total amount of insured benefits per calendar year according to the date of treatment or date on which the service was provided. Costs incurred after the entitlement to benefits is exhausted may not be carried forward to the following year.	7.2 The observation period is the period running from the beginning of September to the end of August in the last two consecutive years during which the insured person has contracted for myFlex Outpatient Insurance.		
4.2 If a limit to the benefits per insured event is agreed, this limit applies regardless of the date of treatment or date on which the service was provided for the individual insured event (including complications and any incidental follow-up or subsequent treatment) and is deemed to be exhausted as soon as all the costs incurred in connection with this insured event have reached the benefits limit.	7.3 If myFlex Outpatient Insurance has only newly been taken out, CSS may provide for shorter observation periods.		
4.3 The benefits and contributions stipulated in the ZB will be paid to the agreed extent solely in addition to and subsidiary to the insurances mentioned in paragraph 31.1 AVB, and in particular to the mandatory healthcare insurance according to the KVG. Proportions of costs covered by these insurances and co-payments arising from these insurances are not insured by myFlex Outpatient Insurance regardless of whether the insured person is covered by the insurances mentioned.	7.4 The amount of the bonus payment is determined each year by CSS on the basis of the degree attained by the result of the myFlex Outpatient Insurance product. Payment takes place provided the result of the product in the last full financial year within the observation period lies within the value calculated in accordance with the technical bases.		
4.4 Unless otherwise stipulated in paragraph 2, at most only the actual receipted costs will be reimbursed.	7.5 The no-claims bonus will be paid out in the calendar year following the observation period provided the insured person still has myFlex Outpatient Insurance as per 1 January of the same calendar year. The insured person will be informed in writing about his entitlement and the individual bonus amount.		
4.5 If treatment is required abroad the CSS Emergency Center must be consulted immediately. Benefits will only be provided if the CSS Emergency Centre approves and/or organises the treatment.	8 Upgrade option		
5 Co-payments	(Right to change the category of insurance without submitting a health declaration)		
The co-payments are based on the scope of the insurance and are shown in the "Insured benefits" table, paragraph 2.	8.1 Individuals who take out the "Economy" or "Balance" category of myFlex Outpatient Insurance may, on payment of a supplementary premium, ensure they have the one-time right to change to the "Balance" or "Premium" category respectively without submitting a further health declaration.		
	8.2 One of the following options may be requested: a) "Economy" to "Balance" b) "Balance" to "Premium"		
	8.3 An option can be applied for at the latest until the insured person attains age 68 and must be declared effective at the latest on 1 January of the year following that in which the insured person attains age 70. Any later declaration to		

exercise the right will have no legal merit. The right to exercise the option lapses without notice on 31 December after which the insured person attains age 70 if it is not validly exercised beforehand.

- 8.4 The option will only be granted to insured persons who, on the basis of a health declaration checked by the company, were able to take out myFlex Outpatient Insurance without any limitations and/or exclusions/proviso or reservation clauses. The option may still be applied for without having to submit a further health declaration during the 16 months following submission of the health declaration. After this period expires the option may only be applied for by submitting a further health declaration. Paragraph 1.2 applies by analogy in this case.
- 8.5 CSS must be notified in writing of the insured person's intention to exercise the option; this declaration must be received by CSS at the latest on the last working day in the month of November during normal office hours. Any declaration received later will be null and void and have no legal merit. If the declaration is declared valid, the change to the agreed insurance category takes place on 1 January of the following calendar year.
- 8.6 After the option has been declared valid, the supplementary premiums for the insurance (para. 17 AVB) remain due until 31 December prior to the change of insurance category. Thereafter the premium rate applicable to the chosen insurance category will be invoiced.
- 8.7 The option may only be exercised once and at the earliest 12 months after being taking out, with effect from the next 1 January.
- 8.8 The option can be exercised at the earliest on 1 January of the year following that in which the insured person attains age 20. Thereafter, it may only be exercised at intervals of five years (e.g. on 1 January following attainment of age 25, 30, 35).
- 8.9 When the option is exercised, the change to another insurance category takes place while retaining the insured risks (illness, accident).
- 8.10 The option can be cancelled in writing by the insured person with effect from the end of a calendar year by observing a three-month period of notice. If the insured person terminates the myFlex Outpatient Insurance or if the insurance ceases for another reason, the option lapses without further notice on the date the insurance ends.
- 8.11 The supplementary premiums paid for the option to CSS by the insured person are retained in full by CSS if notice is served to terminate the insurance or if the insurance lapses, regardless of whether the option was actually exercised.
- 8.12 If an insured person changes to another category of insurance in the normal manner after submitting a health declaration, any option for a corresponding change to another category of insurance lapses without notice. In this case too, the insured person is not entitled to a refund of the supplementary premiums paid for the option.

Inasmuch as legal protection is to be claimed, after checking the conditions of cover CSS immediately passes the case on to Orion; Orion then corresponds directly with the insured person. If legal protection is required when the insured is abroad the CSS Emergency Centre should be informed immediately.

13.2 If the insured person engages the services of a lawyer, next friend or mediator without the consent of Orion, the costs for which he is insured before a commitment to provide cover is issued amount to only CHF 500. Prior approval by Orion must be obtained before fee agreements are reached. If the insured person agrees to pay a lawyer a success fee, this will not be covered by Orion.

14 Processing a case

14.1 Orion determines how to proceed in the best interests of the insured person. Orion conducts negotiations to achieve an amicable settlement and suggests mediation in appropriate cases. Orion decides whether to consult a lawyer or mediator and whether to obtain expert opinions.

14.2 Orion grants the insured person a free choice of lawyer if a legal representative needs to be engaged in respect of court or administrative proceedings, as well as in the event of any conflict of interests. If the insured person withdraws the mandate at a later date, he must bear the additional costs incurred. Orion has the right to decline the services of a lawyer proposed by the insured person. The insured person may then propose three lawyers from different law firms, from which Orion will select the lawyer to be appointed. If the insured person nevertheless insists on engaging a lawyer rejected by Orion and/or does not propose any other lawyer, Orion no longer has any obligation to pay benefits. No reason needs to be given for declining any lawyer.

14.3 The insured person must provide Orion with the necessary information and powers of attorney. All records in connection with the case such as notice of fines, summonses, judgments, correspondence, etc. must be forwarded to Orion immediately. Where a lawyer has been appointed, the insured person must authorise such lawyer to keep Orion informed of the progress of the case and, in particular, to make available the documents necessary to assess the insurance cover or the likely outcome of the proceedings. If the insured person fails in this obligation to cooperate despite being requested to do so by Orion, the latter will set a reasonable deadline by which he must comply under the threat of losing his entitlement to insurance.

14.4 Settlements that contain obligations on the part of Orion may only be concluded by the insured person with Orion's consent.

14.5 Any cost of proceedings or damages awarded to the insured person (in or out of court) is due to Orion to the extent of the benefits already provided.

15 Differences of opinion

15.1 If differences of opinion arise about how to proceed in a legal case which is covered or about the prospects for success of the legal case, Orion immediately gives the reasons for its opinion on the case in writing and notifies the insured person of his right to initiate arbitration proceedings within a period of 20 days. If the insured person does not request arbitration proceedings within this period, he will be deemed to have waived this right. After receiving the written notification providing reasons, the insured person must take all the necessary measures to defend his interests on his own behalf. In such a case, Orion cannot be held liable for the consequences of inadequate representation of interests, in particular missed deadlines. The costs of these arbitration proceedings are to be advanced in equal parts by the parties and will be charged to the unsuccessful party. If one of the parties does not advance their share of the costs, this will be considered as acceptance of the legal viewpoint of the other party.

15.2 The parties come to a mutual agreement on the choice of arbitrator. Proceedings will be restricted to a single exchange of briefs with motions detailing reasons and stating the evidence upon which the parties have based their arguments and upon which the arbitrator will base his decision. In all other respects, the provisions of the Concordat on Arbitration apply.

15.3 If the insured person initiates proceedings at his own expense after the insurance refuses its obligation to pay benefits, and secures a judgement that is more favourable to him than the solution set out in writing by Orion or than the result of the arbitration proceedings, Orion will meet the costs incurred as if it had consented to the proceedings.
