Additional notes

- The list contains all inpatient service providers recognised by CSS (including hospitals, rehabilitation and psychiatric facilities). The insured person must find out prior to each inpatient stay whether the chosen service provider is recognised by CSS.
- The requirement for the service providers to feature on the respective list does not apply in the case of an emergency.
- Inpatient rehabilitation and psychiatric stays are subject to time limits (see Art. 2.4.3 SC).
- The insured person incurs a higher co-payment for additional and supplementary services and benefits obtained from service providers who do not feature on the chosen list (see Art. 4.4 SC).
- A maximum rate has been set for service providers marked with an asterisk (*). The services and benefits in question and the amount involved, i.e. the level of cover and amount of any cost participation, will be communicated prior to hospital admission as part of the commitment to provide cover.
- The currently applicable list can be found on the CSS website.
